**A caring alternative in a
family atmosphere**

St. Joseph's Adult Care Home

The primary aim of St. Joseph's Adult Care Home is to treat every resident with the respect and honor befitting their dignity as a person.

Secondly, the Home aims to provide a family like atmosphere for elderly adults regardless of race, sex or faith.

Our goal is to provide temporary or long term residential care for persons who are ambulatory and capable of self-care, but because of physical or other limitations associated with aging, are unable to live independently.

St. Joseph's Adult Care Home is a non-profit home licensed by the State of New York. The facility can house thirty-one (31) residents in single rooms. Some are with private baths. Rooms are furnished either by the facility or with the resident's personal effects.

St. Joseph's primary aim is to make each resident's stay here one of quality, with emphasis on providing each the opportunity of optimum care.

St. Joseph's is a two story facility with elevators to the upper floors. A common room / solarium provides a gathering place for residents to come to socialize with each other or to just watch Cable TV programming.

Residents are motivated to be active and encouraged to maintain their independence in a residential environment.
